

We want to Express our vote against this upcoming gun bill. We live in a community where almost everyone has guns for hunting, sports and self defense. To take away our gun rights is not right. It will not keep the kids safer from the school shootings. People that want to get a gun illegally will still find a way to get them. You should be smart enough to know that. To not let someone under 18 buy a gun is against our second amendment. Most of the kids (girls and boys) that are raised around guns and gun safety have no problem with them. To take away our right to defend and protect ourselves is illegal. It is against the second amendment. We are both seniors now and I am disabled (Kitty). I have a gun mounted on a table beside me, because if someone broke into our house, it is the only way to protect myself. I couldn't even get up and run. We have never had any "gun" accidents in our families. Both the women and men hunt, shoot and protect ourselves. What gives you the right to keep my gun locked up. You want to make it so honest Americans get locked up and fined for not having their guns locked. Yet you don't do anything to the guy that steals it. I could go on and on. Guess you will just have a huge in flux in your jails. You should think about what is the most meaningful thing you have and what it would be like if we did this same thing to you. This isn't even about keeping the kids safe, it's about your political control (COMMUNIST CONTROL) that the Democrats want to rule the people.
