

Senators and Representative's

As a common sense American and someone with an understanding of who my ancestors were and what America is all about this measure is completely unconstitutional it obviously infringes on our constitutions right to defend ourselves from things such as a Tyrannical Soros owned agenda....Secondly it's also obvious anyone supporting this hasn't a clue about America or it's people. Supporting this insanity is an invitation to the criminals you do support to feel free to attack our children like fish in a barrel...Common sense would be to protect out most precious children....Not murder them in or out of the womb....Your support for Soros a true NAZI and his NWO....Look it up for yourself... He's wanted all over the world dead or alive for a reason....I can't believe the ignorance and insanity of the leftist extremists don't you have grandchildren?

They hate and division is coming from the left and if your TDS is so out of control so should resign and seek treatment....

You've been taught America is bad and you who take no responsibility for your actions are the riotous....

Communism has failed any time it's been attempted simply because you can't have free stuff without slavery and if you understand human nature...That don't fly....

In summary Americas will hold you accountable for the release of criminals and any harm that come to our children.....

10 out of 10 Criminals / Terrorists prefer gun free zones because they can do the most damage.
