

Law abiding citizens do not need to lock up their guns. They are not the problem. The problem is with criminals who are let into our country, illegal aliens, murders, rapists, molesters, drug dealers, gangs, and all other manner of scum. Those people need to be kicked out of our country and sanctuary cities and states need to abide by the law of our country, not against it.

We cannot protect our homes and families when the criminals come knocking down our doors. If you think what you do for these criminals will save you from a horrible fate, just wait. They'll be knocking down your doors some day and you will wish your neighbors had guns close at hand to help you.

Stop this attack on gun owners who have done nothing wrong!

Nancy Cole
