Good Morning,

I'm writing to ask that you consider either taking up this bill in the next regular session, or place it on the ballot to let all Oregonians vote on its merits. This is too complex and costly to even be considered during this short session, which wasn't designed for these matters.

As for the bill itself, I am very concerned about the economic impact it will have for all Oregonians, while the state collects more tax dollars, creates more regulations, and puts our citizens at a disadvantage with no substantial difference to the environment.

Sincerely,
Cam Buck
