Dear Representative's

This bill will do nothing more than put our truckers out of work, raise fuel costs, raise the cost of all goods and services, tax people that are already taxed to the point of inequitable repair and just all out hurt Oregonians.

Timberunity advised you of a plan that will help your cause and will do so without hurting Oregonians, you are expected to follow through with our plan.

Polls have shown that Oregonians do not agree with this bill and I believe our legislative branch knows that. I believe that is why they don't want it going to the voter's. This government overreach needs to be stopped immediately and things of this nature should be placed in the hands of the voting population, our legislators work for the voters and should allow the voters the voice they are promised.

The rally on the 6th should have made it very clear that we aren't going away on this or any other over reach. We are going to be here, stay here and hold accountable those that are voted in.

Let Us Vote!!!!

Respectfully Robert Egner
