

February 8, 2020

Chair Dembro, Vice-Chair Olsen and other Members of the Committee:

I urge you **to support SB 1530** in Committee and on the Floor.

Senator Olsen, since I and my forestland are in your District please note that I need and expect your representation on my behalf. You will recall my visit to your office last Session to speak with you and bring a copy of my testimony regarding a couple of Bills.

Their similarity with SB 1530 is that they all reflect my seeking common ground both with groups supporting working forests and those usually favoring tighter restrictions on how we treat water fish and wildlife who visit our land and the waters of the State.

The rest of your Committee will, I trust, join us in being seriously and respectfully engaged in dialog on how to meld policies good for family, community, County. State. National and Global benefit.

Sincerely,

Gilbert A. Shibley
