Subject: No to HB 4105 restricts oil and gas production and transportation
Date: Monday, February 10, 2020 10:47:26 AM

Is there any left wing policy the Democrat Communist Party doesn't want to ram through the legislature?

How many of the supporters of this bill drive electric cars? Will supporters of this bill vow to stop their

use of fossil fuels? Will the Governor stop flying in order to not use fossil fuels? Get real.

We need an energy independent America. Wind turbines and solar panels are not enough to do that,

nor are they cost effective.

No to HB 4105 and No to Cap and Trade.
