

Good evening,

I wanted to write to urge you support HB 4075 to end the cruel coyote killing contests. As we progress as a people I believe that we all can clearly identify and move past these types of cruel activities that are not fair with our levels of technology and the data does not support that these contests are effective in controlling any sort of population issues.

Also, in this day and age, I believe treating any life, whether human or of a different species with respect is a valuable lesson to us all.

Thank you for your time and And please support HB 4075.
