

Dear House Natural Resource Committee,

Please support House Bill 4075 at the hearing this coming Tuesday, February 11th. Banning inhumane coyote killing contests in Oregon is the right action to take now for both the sake of wildlife and in the name of decent human behavior towards living creatures. Please don't allow this kind of horrific contest, that scientist have shown is not an effective way to manage wildlife, to continue because it is the status quo. We have learned from history that many unconscionable activities have taken place in this country until some people have the courage to stand up and say, "This is wrong," and this legislative session is the time to say "enough of brutal coyote killing contests."

Thank you for your time, service and consideration.

Sincerely,
Lisa Mirhej
