Testimony in opposition of: House Bill 4105: Relating to fossil fuels.  
Submitted to: House Committee On Energy and Environment

Dear Chairwoman, Power and Members of the Committee,

I offer this testimony in opposition to HB4105 because it would all but eliminate the distribution of natural gas throughout the state of Oregon.

Natural gas is arguably the cleanest, safest, and most abundant fuel available to residents and industries within our great state. This fuel is used to generate electricity, warm homes and businesses, and in the preparation of healthy meals within homes and restaurants throughout Oregon.

Those likely to be harmed most are those that likely can afford it the least.

It is for the reasons above that I respectfully ask all of you to join me in opposing HB4105.

Respectfully,

Joe Spendolini

Abandoned cable plant in Merrill, Oregon has been in a steady state of decline after being neglected and unmaintained for about a decade.
