Subject: Oppose SB 1513!
Date: Monday, February 10, 2020 12:28:55 AM

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Jen Eiffert

This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Carol May

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply papers over the appalling absence of real regulations that would have insured that Lost Valley Farm never got approved in the first place. The significant negative impacts that mega-dairies have on our state need, at the very least, not to be added to by allowing more mega-dairies or by allowing existing dairies to be expanded. Passing SB 1513 would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

(Which raises another issue. Why would the regulators responsible for protecting and sustaining agriculture in our state and the regulators responsible for protecting our land and water even consider allowing an operation like Lost Valley to be established where water resources are patently inadequate and the inevitable environmental failures at such a facility would -- and did -- constitute a major threat to ground and drinking water? They certainly weren't protecting the interests of Oregonians. Whose interests were they -- are they now -- furthering? Maybe a hearing on these questions needs to be scheduled.)

Sincerely,
Carol Voeller

Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Robert Medici

Date: Sunday, February 9, 2020 11:57:23 PM

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Subject: Opposition to SB 1513
Date: Friday, February 7, 2020 10:19:00 PM

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Regards,
Karen O'Halloran-Miller

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Bill O'Brien

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Patty Bonney

Subject: Oppose SB 1513!
Date: Friday, February 7, 2020 4:22:07 PM

Dear Oregon State Senate Committee On Environment and Natural Resources,

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Diane Daiute

I oppose SB 1513 and ask that you not schedule a hearing, and if there is one, vote no on passing this bill out of committee. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep the state's systemic failures to protect our environment and communities from this industry under the rug.

Mega-dairies harm our air and water, small family farmers, animal welfare, and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Thank you!

Sincerely,
Ed Leach

Date: Friday, February 7, 2020 6:24:10 PM

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.

Dear Committee Members,

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

As a veterinarian, I am very concerned about the welfare for cows on dairy farms. I have seen firsthand the cruel, filthy, and inhumane conditions in which they are often kept on mega-farms. In addition, they horrendously die due to being forced to produce unnaturally enormous amounts of milk. Wildlife also suffer due to the harmful environmental effects of this industry.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

I oppose SB 1513 and ask that it not receive a hearing or be voted down if it does.

This weak bill simply doesn't go far enough to address the significant negative impacts that mega-dairies have on our state. Passing it would give false security that mega-dairy oversight regulation has been solved, and that we can go back to business as usual, paving the way for even more mega-dairies in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon. To pass this bill would be a disservice to the long-term needs of impacted communities, our independent family farmers, and Oregon's air and water to address these problems in a truly substantive and sustainable way.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks.

What we really need is a moratorium on new and expanding mega-dairies. A thoughtful analysis of the reforms needed to protect Oregon's environment, communities, and farms requires a complete time-out from the expansion of the mega-dairy industry to achieve the meaningful reforms Oregon needs.
