**Subject:** Oppose SB 1513, we need a mega-dairy moratorium instead!  
**Date:** Tuesday, February 4, 2020 6:19:43 PM

---

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Deborah Demmon

Dear Committee Members,

Unless you want drinking water tainted with cow poop there must be strong protections against environmental abuses by factory farms. Encouraging small family farming is better for the earth and for our local economies.

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Richard Pross  
17560 Kelok Rd  
Lake Oswego OR, 97034-6654

**Date:** Tuesday, February 4, 2020 5:00:43 PM

---

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Linda Engels

**Subject:** Oppose SB 1513, we need a mega-dairy moratorium instead!  
**Date:** Tuesday, February 4, 2020 4:29:48 PM

---

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Veronica Jensen  
7086 NE Cherry Dr  
Hillsboro OR, 97124-7284

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

This issue of CAFO's is unbelievably tenacious! Why isn't it obvious Oregon's leaders have a great opportunity to protect land, water, and air quality as well as rural communities and the dignity of non-human beings? We are in a countdown to find better, more carbon-sequestering and soil-supportive modalities for agriculture. Get on board, Oregon!

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

I grew up on a small dairy farm and we did NOT brutalize our cows. COWs should not be forced to live in unsanitary conditions and be treated with brutality. Oregon must not encourage another blight on our traditions with another mega-dairy. For Shame Oregon should be encouragin and support small dairy farms and cleaner environments for both animals and humans.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

**Subject:** Oppose SB 1513, we need a mega-dairy moratorium instead!  
**Date:** Tuesday, February 4, 2020 3:59:46 PM

---

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Rich Schwartz  
3717 SE Alder St  
Portland OR, 97214-3207

This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Maurine Canarsky

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Michael Anderson

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

Unless I'm reading the Bill wrong, I don't think it is the State taxpayers who should pay to clean up the mess left behind by Lost Valley Farm. Go after their insurance company or the retainers of Lost Valley Farm.

Also, this is the short session, don't waste time on supporting mega-dairies while the market for milk is collapsing and dairies are spilling their market because of over-supply. Help the family farms.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

**Subject:** Oppose SB 1513, we need a mega-dairy moratorium instead!  
**Date:** Tuesday, February 4, 2020 3:05:44 PM

---

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This very weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

W Kent Wilson

Dear Committee Members,

I oppose SB1513, which makes minor revisions to the permitting process for mega-dairies. This weak proposal simply doesn't go far enough in addressing the significant negative impacts that mega-dairies have on our state. Passing it would simply sweep under the rug the state's systemic failures to protect our environment and communities from this industry .

Mega-dairies harm our air and water, small family farmers, animal welfare and Oregon's special places. Nowhere has that been clearer than at Lost Valley Farm, but it isn't just Lost Valley. Mega-dairies, including the proposed Easterday Farms that regulators are currently considering, have no place in Oregon.

SB 1513 is a weak half-measure that won't adequately address the mega-dairy crisis. We are past the point of minor regulatory tweaks. We need a moratorium on new and expanding mega-dairies.

Sincerely,

Ann Cobban  
105 Hummingbird Rd  
Cave Junction OR, 97523-9821
