

To whom it may concern,

I am emailing my testimony in opposition of SB1530. I feel Timber Unity has given you proposals which you cannot ignore. They have given solutions which will have the same goals you are trying to achieve without hurting anyone in the state of Oregon. Is that not what your jobs are truly about? You are there for the people, and if there are actual solutions that can be reached for the benefit of all, than that is your duty to pursue them. It is not about what you want as an individual or as a Party! Please be there to represent all of Oregon. Don't try to divide this State any further than what has already been done! Thank you!

Sincerely

Sandy Kottre
