GUN CONTROL

By Manny Martinez

History cites under a variety of Communist regimes, mass killings totaling an estimate of death toll numbering between 90 to 100 million and counting; scattered worldwide (China, Vietnam, North Korea, Cambodia, Europe, Latin America, Africa)

After the demolition of the Soviet Union and the gradually increase of Socialism and Liberalism during the sixties, new headquarter must be found as the head and to manage the Marxist ideology. Knowing the patience of Marxism and their perseverance, America is emerging as the front runner. After more than seventy years from WWII, America has amassed the technology, richest and everything else anyone can dream of, definitely the ideal prey. However, there is one thing left to do by the Marxist/Socialists, it is to conquer America. This has been tried for years without success. Now Socialism has surface fashionably as the magic tool to accomplish the impossible task for now. Without a doubt they forgot the obstacle of the “2nd Amendment in our Constitution, the guardian of our Rights and Liberties; the one who prevent dictatorial regimes to settle, including Socialism, with its catastrophic record. Is well known Socialism, same as others similar regimes, does not allow citizenry to posses’ arms therefore, making disarm mandatory. The Socialists excuse for disarming the people is either or both “protect citizens” and “children safety”, which is a shamble and a mastodon, lie. This move is the prelude of the regime to set, trying to avoid a bloody confrontation, from the people rejecting tyranny.

Now we can see the reason why Socialists are so eager for gun control. It is clear they have to eliminate the “2nd Amendment for their dream to root. Negate the Right to bear arms cannot be accepted, neither contemplated. This is a FREEDOM Nation and must stay FREE, no alternative neither matter of discussion. Freedom yes, Socialism/Communism no.

These Socialists, even though advocating be humanitarians and candid, are nothing more than fallacies designers; assaulting Freedom, Rights and Liberties is their intention to cement their goals. Socialism is just a transitorily step to Communism, the coronation of Marxism. Converting our Nation in a Socialist one, is to become a portrayal of an enslave country same as others ruined, without Rights, Liberty, Self-respect, Pride, Honor; immerse in submission or recluse as many are, in rehabilitation sites. Most people do not know what Freedom is.

Socialism, the Death of America February 7th, 2020

By Manny Martinez

The reason of HB 4005 is to disarm America citizenry, to introduce "Socialism". My past experience asserts me to testify it. HB 4005 is an assault to Freedom. A dishonor to does that die for Freedom, the "Right" we must defend.

Socialists do not recognize "Individual Rights" but, only "Rights", the ones granted and control by them. They wanted to convert our Nation into Socialism, step from Communism. This is the reason for the obsession of gun control and to get rid of President Trump, at any cost. They are the obstacle for Socialism. It is not secret disarming the American citizenry, is a need for Socialism to set. *The chemistry of the 2nd Amendment, an armed citizenry supported by the President of USA is the obstacle to stop expansionism of Socialism /Communism.*

This Land cannot be taken by force, have been proven. But, it is a vulnerable prey for manipulations thru political maneuvers; due to lack of awareness and poor knowledge of Socialism. Reason why our philosophical structure must develop in our educational centers, real and common sense social and economy programs, called "Capitalism", the Freedom and self determination, the pillars of our Foundation." We need to start from primly years up to high schools; then continue deepening in colleges and universities to eradicate these tyrannical doctrines. Is imperative signalize to reject injecting, our younger generation, with fatidic Marxism. Left wing scholars has been strategy planted, in educational centers from past Liberal administrations; hiding from be Marxist but, emerging radical Marxists when conditions ripened.

Socialism has spread in this Nation due to laziness and manipulations from politicians. But, not forget our erroneous thinking and over confidence, saying could not succeed here. Socialists keep nurturing us with the drug of Socialism softly, quietly unnoticed. I with sadness routinely hear the phrase "It would not happen here" This erratic thinking has brought us to where we are now. Meanwhile, we keep ignoring Socialism, which is rooting and spreading at will; in contrast they keep preaching for Socialism laud and clear.

(Marxism tentacles and reality)

Absolute positive, Marxism main goal is World Control. Utilizing differ variation of systems and sorting names for appealing only, but all for one goal "World Control". Many tentacles denominations are used by Marxism not limited to Socialism, Liberalism, Progressive, Communism, Democratic Communism, Neo-Communism, and Cultural Marxism and any other similar, which are many. However, one is more tasteful than others; which are Socialism, the ante-chamber of Communism, the one who carries the goal of Marxism at heart.

Marxism has penetrated by now all Nations in the world. Nevertheless, even thou they have been short conquering the World and its domination, still are pursuing it without resting. The cause is mainly the people, after been assail by Marxism, they has revolted. With sadness those Nations once been conquered and later liberated, have been unable to fully recover to reach true Freedom and Liberty the ones they once lost. Once Socialism, pass through a Nation devastation, desolation, misery, pain and death is left behind. It takes a length of time to recuperate. Those asking for these types of regimes are sick, with obsession for power without no ending; for them the well being of a Nation and its population are considerer irrelevant, just a malicious insatiable appetite for World Control is their satisfaction.

Socialism/Communism as I repeat from past writings started the infiltration worldwide in 1919, when implementing the Third International knowing as Communism International Bureau or "Comintern". This operative existed 'til WWII for purpose of world revolution injecting Socialism, disbanded by Josef Stalin as a gesture to the Allies, during the war. However, after the Soviet took over East Europe and the "Cold War" sprout, the Soviets resurrect the prior idea naming it Communism Information Bureau or "Comimform." Later, in 1956 Nikita Khrushchev decided it termination; by that time World was well saturated with Socialism/Communism, its continuation was cancelled. More explanation is irrelevant; just take a look at the present to confirm. We are now facing an apparatus to execute World Domination. It is named International Communism directing Socialism the Ante-chamber of Communism, the executioner of Marxism. However, Socialism/Communism could not achieve their goal, without help from others lefties radical groups neither with the absent of Islam, the cradle of terrorist. This versatile group of terrorists carry out the dirty work, which Socialists would not wanted to perform; they distanced from violence which can damage their image in future political situations but, support them. Socialists are not shy to defend terrorists and criticizes those retaliate them. They only hide refusing to get involve directly until the task is accomplished. Socialists are master deceivers, unless someone exposes them. Observe the reaction against their own country, America in the last Iranian conflict, a disgrace. Many are the Marxism tentacles nowadays such as, Neo Communism appearing more advance with better appeal for recruiting but, as dangerous or more than with their traditional Old strategy. Communism is solidifying; they utilizing all those tentacles, injecting their dogma but, hiding to the end the ultimate goal of Total Control and elimination of Freedom.

Neo-Communism also addressed before is more interest and should be mention now. Marxism goal would not change, as evil as is now but, their tentacles could. The Old Communism could be replace by Neo-Communism as the apparatus to implement, direct, administrates and entirely executes Marxism. Neo-Communism is a merger between the Old dogma and Super-Capitalism, which advance Marxism rapidly in cultural institution and business. This new apparatus has found the missing link between Communism and World Control, which are the powerful worldwide billionaires; obsess with absolute total world control. They will maintain Marxism and all his principles, to institute themselves as the World rulers' undisputed new "elite". This is the one that could tumble and eliminate our culture and forever our future. I merely touch but should be address in detail by Anti-Marxists in defense of our self-determination, Freedom, individual Rights and overall Liberty. It is undeniable Marxism must be eradicated from the face of the Earth. Neo-Communism is Marxism but sophisticated, definitely more dangerous.

“Cultural Marxism”, a controversial term which I don't believe is recognized by Marxist philosophers as true Marxism. Appears Cultural Marxism is a catch-all for lefties issues. Many philosophers indicate Marxist revolution is against old traditional culture, the oppressor in modern time. They attack the foundation of the old culture like patriotism, family, religion, morality, rule of law but, using it as a tool only. Cultural Marxists recognize multiculturalism as political correct, in conflict with the culture of the past. Cultural Marxism surge after end of WWI, the theoretic Marxists believes in needs to update their strategy, to achieve their goal, due to culture. However, Karl Marx felt culture is not a primary concern, which is easily to manipulate. Equally has been the feeling of other philosophers. Even thou Cultural Marxism might be not recognizing by theoretic Marxism, cannot be deny the helped make to Marxism, as a tool. The Western culture now, opposes traditional values; they rather prefer more progressive ideals. Pure Marxism philosophers do not recognize culture for changes. They believe changes are needed but, done by “Dialectical Materialism”. Cultural Marxism is a term rarely used nowadays.

Democratic Socialist, it is recognized by Principles of Communism for carrying most of the Marxism ideals, which eventually turn in Communism. In America they are assailing the Democratic Party advancing at a very fast pace toward making the conversion for cementing Marxism. The DNC at the present appears as the “Socialist Party USA”. Other Socialism tentacles were identified as **Reactionary Socialism and Bourgeois Socialism**; both mentioned by Principles of Communism however, sounds like “rebels without a cause”, I believe eventually would vanished absorbed by Communism or Neo-Communism

The Reality, in America what is in need is to see reality, which in many instance we are lacking; appears the causative is our culture. In our Country people in general are amicable, passionate to help the ones in need, we are industrious and to enjoy what we feel is Freedom. Even thou many do not know what Freedom is. We grow tending see evil as transitory and secondary, if not see it ignore, we feel evil only if seriously existed but, when close. If evil not close and in some place else, existed none we say. This is understandable; we have been raised, developing to be self-dependent. We love the idea to advance by our own initiative, having individual rights and believe in our efforts to do it. We believe in winning and proud to succeed. We love help others when in need, but giving with honor. We want the same for us, when receiving. We reject dependency. Overall we feel safe and victorious. Therefore, we grow and live without fear to evil, which the reason to be blind to see evil; been the culprit the habits, way of life or “Modo Vivendi”.

Similar happened to me. I have passed more years in this Country, than years in my native one but, I saw Socialism and close. I try to tell what and how Socialism/Communism operates. What they did in my native country. I try to detail how Venezuela turn bankrupt after be one of richer in the world. I mention how Communist settles in Europe and in many other places. However, the response I got was **“It won't happen here”** they say. However, not knowing what is **“happening already”** neither how. The year 2020 does not worry's me, so far. Year 2024 does. WHY? Too many people blind and deaf without known what is happening, neither how.

Immediately after 2016 Elections, Socialists wanted President Elected Donald Trump to be impeached. WHY? They could not accept him, again WHY? They immediately start preparing a Circus. Lies start fabricated, accusations began, and a whistleblower came from the occult and social media to join the frenzy impeachment, Hollywood style, scenario USA Congress. Then silence, lights, action, starts filming. After weeks all of the sudden, the so call evidence disappear among the clouds. Witness's testimonies were irrelevant. Most were socialists or disgruntle personnel. All the revelations, since this buffoonery started were false, inaccurate or not credible. None of the Socialist said could be proven. Then, WHY one more time, keep trying impeaching President Trump? Let's face reality; SOCIALISM the reason. Donald Trump is not socialist. He is the obstacle, the barrier, the reason for impeach him. He is the wall for SOCIALISM not set in this Land. Everything he does is anti-left, that is WHY the impeachment. The obsession of the Left is to convert this country into SOCIALISM. The “Quid pro Quo” was a makeup lie. The whistleblower and rest farce were theatrical, President Trump is their enemy. The making of President Trump wrong doings is an excellent sample of the Marxist Principle “Dialectical Materialism”. **Make an issue (Thesis):** Trump, anti socialist **Exploit the issue (Antithesis):** Impeachment hearings, accusations, lies, distractions. **Solution of the issue (Synthesis):** Impeach President Trump. Therefore, Donald Trump has to go. As the legendary Paul Harvey would say: “Now you know the rest of the story”. This is reality. It is COMMUNISM. America wake up, see and listen. *IN the Mastery of God, I Trust.*
