

Hello,

Please stop and take into consideration the devastation this bill is going to bring to us oregonians if this passes.

We are all struggling as it is due to excess taxes on just about anything and everything and if this passes we are no longer going to be able to live, we are going to be just scraping by worse than a lot of us already are also this will take away jobs, raise prices on fuel, food, and ect, it will keep food from reaching stores and keep people from wanting to live in this state anymore.

Both my husband and I both work for a partial board mill and if this bill passes we have a chance of shutting down and that would put over 300 people out of a job and possibly out of house and home. Is that what you truly want for Oregon?

We all came forward on the 6th and showed how many and thousands more that will be affected by this bill now it's on you to see how bad this will be

Please use your heart and open your eyes to the issue this is creating

Thank you for taking the time to read this
