

Please drop this bill into the nearest round file!

Oregonians deserve better than this from our legislators. Our governor is ruining our state with lies and misinformation.

My grandchildren deserve to live here in the best state , raise their children, and continue enjoying all that Oregon has to offer.

We all know that rural Oregon and the people who live there, is what keeps the cities going and alive. A truckers strike would seriously cramp the lifestyles of Portland, Eugene, and Salem.

Do the right thing...end cap and trade before it starts...walk if need be, we support you!!

Sincerely,
Debra Byrd
Powers, OR
