

Maybe you missed the thousands of Oregon citizens on steps in Salem on Thursday, February 6. They are saying NO, NO, NO to this ridiculous cap and trade bill.

1 - This is NOT an emergency and the use of the emergency clause is so overly used that it is sadly humorous at this point. Just because you are afraid of the outcome doesn't mean you know better than the citizens nor does it mean that you get to overrule the citizens. That is not how this works. Remember you are the employee and the citizens are the employer.

2 - Redistributing our money and increasing tax affects EVERYONE in Oregon! Those who are low income, seniors, students, and everyone in between will feel this tax. Companies will be laying off employees. All of the economic growth Oregon has gained will be wiped away with this bill.

3 - Lowering our CO2 emissions by less than 0.0025% does absolutely nothing. What needs to happen is going after the countries of mass pollution; China, India.

4 - Either kill this bill or let the people in Oregon actually vote on it.

NO, NO, NO, NO, NO on SB 1530, HB 4159 "cap-and-trade"

Submitted by 3 legal voters. Yamhill County.
