Subject: NO on SB 1555

I am a co-ownee of a farm in Hubbard, Oregon that has been in our family for 105 years.

I believe SB1555 is fraught with difficulties. First, what is a religious leader? All sorts of cults could have a religious leader and build on EFU land.

Second, there are already so many conditional uses for EFU land and this one seems to be a one man show.

Third, perhaps the short session is not the time to make such a hasty decision.

Do not send this bill on. Thank you
