Subject: Statement in opposition to SB 1533

To Whom It May Concern,

I am writing to testify against SB 1533, because there already exists a means for low-income renters to get free legal help, and there are many tenant attorneys who will take cases hoping to get paid by the landlord. This assistance provides the necessary help, while avoiding the unnecessary expenditure of tax dollars to pay for services where the tenant is clearly in violation. I would be in favor of providing an informative handout with all court filings to include a rendition of resources that may be available if the tenant feels the complaint is in error.

Sincerely,

Tia Politi
