Date: Sunday, February 9, 2020 9:03:47 AM

My husband is a self employed logger, who employs 30 people. My son is a self employed electrical line company, and has in excess of 100 employees here in Coos County. We estimate the Activity tax will cost my husbands company \$ 8K this year. My son's company will incur over \$100K. This tax was not voted on by the people of Oregon, and now you want to do the same thing to us again with this bill? This bill will increase our fuel cost dramatically! Our profit margins are so slim now, you are adding more to our burden. This should not be in a short session, nor an emergency passed through without our vote.

Sincerely, Darcie Stone
