Dear People,

I have been a landlord for more than 40 years. In recent years as tenants' laws have changed, I have begun to ask myself if I want to continue as a landlord when I feel tenants have more rights than I the landlord. On another note, I am lucky to earn 6 percent on my money and now you are considering giving tenants more legal power than I can afford. I may be forced to just sell my rentals and bank my money.

I do not agree with SB 1533. Stop this ridiculous action.
