

I feel each elected official should fully read entire bill before voting on it.
How can any elected official in good consciousness vote on this bill which will effect the entire state.

Please read and understand what you are voting on prior to any voting.

I seriously would never vote on anything/anyone prior to reading, research and questioning any concerns.

Please do the job you were hired by us to do. You are "PUBLIC" employees after all.

Thank you
Deborah Keady
