**Subject:** Tax on CARBON?  
**Date:** Monday, February 10, 2020 6:51:47 PM

---

I don't want to be disrespectful. You can't think that the public is going to believe in carbon. I was in Salem and know that the hearings were a joke. They shut the hearings down so they didn't have to listen or record peoples testimony they did not want. If you just want to raise taxes. Don't make phony excuses, just say that your raising taxes.
