Subject: I oppose cap and trade

Hi,

I'm writing to let you know I firmly oppose the cap and trade bill this session. Either kill the bill or put it up for a public vote in November. I live in timber country and this rural Oregon town I live in (and all of the surrounding towns) are supported by timber dollars. Cap and trade will destroy our livelihoods. There are no other family wage jobs and none coming anytime soon. Families will lose their homes! The financial burden will be the death of all of rural Oregon. Please vote No on it.

Thanks,
Mary Lovegren
