Pretty sneaky dropping a 177- page change to the family-destructive cap and trade bill at the last minute!

A thousand, ten thousand times, NO!!

We're sick of sneaky politicians raising taxes!

This thinly-veiled whopper of a gas tax will have zero measurable impact on the environment, and gives opportunity for foreign companies to purchase the "credits", decimating local business even further.

This is a business deal from hell packaged as an environmental deal.

The people of Oregon aren't fooled!!

NO! NO! NO!
