---

Please, I urge you, do not pass SB1530. This will RUIN Oregon's economy and put thousands of Oregon's working class out of business/out of work...and all for absolutely no impact to Oregon, or the worlds, "climate change". This is nothing more than a revenge dish served to benefit those companies, and FOREIGN COUNTRIES, who could afford to pay this tax themselves!! You were given a low cost, sustainable alternative, brought together by united OREGONIANS!!! Leave it to the people to decide!!!!

I implore those of you who need to take a stand, please do so!!! We the people want to stand with you!!!

Respectfully,  
Megan Cozart
