First thing I would like to say is the Short sessions need to end. It's turned into a ram through session of special interests that is not in the best interests for Oregonians. SB 1530 cap & tax is going to cripple Oregon, what good will come of this? NOTHING! Nothing good will come from this, period! Stop this madness and hurting Oregonians. Our most vulnerable fixed income retirees aren't going to be able to absorb this, and what of the families just trying to make ends meet? I believe this hasn't been thought through thoroughly in just 24 hours! Stop the madness and kill this thing!

Respectfully,

Michael Sumner
