

WHO WE ARE

OUR MISSION

Our mission is to **promote local forest management solutions that foster ecological resilience and socioeconomic health** for the southern Willamette forest and communities.

Through using multi-party collaborative processes, we address social, economic, and environmental challenges unique to rural east Lane county, while bringing people together for healthy forests and communities.

LANDSCAPE PLANNING

SERVE THE UPPER
WILLAMETTE WATERSHED

IMPLEMENTATION ADVISORY COMMITTEE

The Implementation Advisory Committee provides input for implementing stewardship and Good Neighbor Authority (GNA) projects. This committee will provide recommendations and priorities to allocate millions for restoration work in the watershed.

RIGDON COLLABORATION COMMITTEE

The Rigdon collaboration committee works closely with the Forest Service interdisciplinary team to restore the 105,000 acre Rigdon landscape. The committee developed zones of agreement for the landscape's human uses, vegetation, wildlife, and aquatics.

COMMUNITY FIREWOOD PROGRAM

The Community Firewood Program is a partnership between the City of Oakridge, Lane County, Inbound LLC, Lane Regional Air Protection Agency and the SWFC to meet EPA air quality standards in Oakridge. The program utilizes logging slash to provide seasoned, affordable wood to local residents for home heating.
