February 19, 2020

Corvallis City Council wishes to indicate its support to reduce greenhouse gas emissions through carbon pricing.

This position is supported by our city documents and recent actions:

- **Corvallis's Vision Statement:** Corvallis is a safe, sustainable, resilient, small city... that protects its natural environment, addresses a changing climate, and prepares for emergencies with special attention paid to its most vulnerable populations.
- **Corvallis Climate Action Plan:** Carbon Pricing Promote policies at the local, state and federal level that implement carbon-based fees or taxes.
- City Council **Resolution 2015-15** endorsed carbon pricing.
Corvallis City Council voted unanimously to support the passage of HB 2020.

We know that addressing climate change is critical for the future of our state and our community. Carbon pricing will lead us on a path to creating a strong clean energy economy by putting a price on major greenhouse gas emissions sources, while funding clean energy innovation in communities and industries across the state.

Please work quickly and efficiently to move legislation forward during this session. We cannot afford to wait any longer.

Sincerely,

Biff Traber
City of Corvallis Mayor
