

My name is Savely Kalugin and I oppose SB 1530. I live out here by ST Paul and I do live on a farm. I'm a husband, father, sole financial provider and business owner. This tax increase will not only increase my business costs due to fuel costs, material costs, etc. But it will also increase my living costs. Little known fact we already pay close to 35¢ in Oregon fuel tax alongside with federal fuel tax and local taxes. We don't need an extra tax on top of an already an existing tax what we need are other options which Timber Unity has already offered. Let us stop the taxing, let us cut costs and use other affordable options. I love Oregon and it's environment but taxation is not the answer. Thank you and I respectfully to ask you to vote no and kill this bill.
