Subject: Opposition to HB4167
Date: Thursday, February 20, 2020 8:45:06 AM

I want my opposition on record.

I've been a middle class citizen of Oregon my entire life. I've worked and paid taxes since I was 15.

I'm tired of taking it in the backside from out-of-touch lawmakers in Salem. The sneaky tactics and abuse in Oregon government of "declaring an emergency" is palpable. So is the disdain for the agricultural industry and it's workers. We can feel it from our governor and throughout the House majority.

Stay out of our utilities. Stay out of our fuel. Stay out of our vehicles. Stay out of our pocketbooks. If you have issues with those things, then put it to Oregonians to VOTE.

There's ways to address carbon issues without taxing citizens and businesses. You have already heard the four point plan from Timber Unity. Have a little faith in the general public to provide input and solutions, and allow us our constitutional right to vote on these issues!

Thank you,
Stacie Moore
