

Committee Chair and members of the House Rules.

HB 4167 with respect, there is no climate crisis, no amount of money will alter or change our climate. Nothing we do in Oregon will make a difference, other than take money from the least of Oregonians that can afford increases in goods and services.

Climate Change has been happening since the dawn of time, CO2 is the breath of life.

Please tell me where is the Climate emergency? The sky is not falling! The predictions that have been made have all been false.. please think about it, with HB 4167 we will tax regular folks like me on Social Security with increased energy costs and raising food and service costs. A short session is no place to put such a bill, I would like an opportunity to vote for such an increase in taxes. Please consider not supporting HB 4167.
