

Dear legislators,

I'm asking you to please reconsider the cap and trade bill. Here are a few of the reasons I feel it should be dropped or put to a vote of the people

There are at least 12 counties that have signed proclamations opposing cap and trade.

This bill will effect everyone in Oregon, not just the trucking and farming industry. The prices on personal fuel will increase, as well as products being trucked to stores. It will also increase our utility bills and many families can't afford any increase.

You are targeting small businesses with this tax. Some are living the American dream by owning their own business. They are prosperous because of our good economy but this tax will put a huge strain on them.

The voters of Oregon should be able to vote on such a huge tax that you are trying to pass onto us.

Thank you for your time

Nancy Mackey
