

I am against the Democrats Cap & Trade Bill. It isn't good for anyone, but people blinded by progressive messaging. The bill will drive up utility and gas prices. The carveouts we hear about aren't a fix because they aren't for everyone. Even more important, Democrats aren't listening to County Commissioners from all over Oregon who are saying NO to Cap and Trade. I believe our legislators should, too.

Cap and Trade is a HUGE change in how Oregon does regulations related to transportation and manufacturing and natural resources - the people deserve the right to vote - refer it to the people. Let's vote on it. Like we did before, but is being ignored!

Plus. \$20 million to implement is crazy and unrealistic based on past projects and failures.

Stop this craziness now. No on the Cap and Trade Bill.
