Dear Chair Holvey and House Committee on Rules,

I oppose HB4167. This bill steals from the pockets of hard working Oregonians and will heavily burden our economy.

This issue needs to be addressed at the federal level, as a whole country, and has no place in the state level. If it absolutely must be discussed at a state level then it should be brought to vote to the citizens of the state. It ultimately affects them personally, financially, and economically.

Thank you for your time and your commitment to our government.

Dear Chair Holvey and House Committee on Rules,

HB4167 steals from the pockets of hard working Oregonians and will heavily burden our economy. Many middle class Oregonians are struggling to get by as it is, adding more and more taxes is just lunacy. Enough! Maybe more time and consideration should be spent on real issues here in Oregon, such as the homeless population that grows daily. Or mental health issues? Or drug addiction issues? This Cap and Trade will only hurt all of the hardworking Oregonians, without solving any real climate issues as stated by many environmental experts.

This issue needs to be addressed at the federal level, as a whole country, and has no place in the state level.
