I am appalled at the smoke and mirrors way that the Democrats have tried to pass the Cap and Trade Bill. You have failed to listen to the people of your state. My father was a logger and was killed in a logging accident when I was only eight years old. I grew up in rural Oregon. I live in rural Oregon. I AM RURAL OREGON. I own my own property with a hazelnut orchard and have horses that add value to my family's life. This is my American Dream. With Cap and Trade you are attacking that. These taxes are going to drive up my living expenses, my farm management expenses, and the cost of my horses. Hay is already expensive and it will only get worse. I want to preserve this way of living for my kids and I'm going to fight for it. Listen to Timber Unity.

VOTE NO ON CAP AND TRADE

Sincerely,

Kaitlyn Braun RN, BSN
