**Subject:** No on SB 1530/ HB 4167  
**Date:** Thursday, February 20, 2020 2:06:10 PM

---

We as a country have improved our climate emissions and we as a state of Oregon have improved them as well. China is the biggest polluter and companies who do manufacturing in China like Nike contribute to the emissions problem more than the small family business that you are hurting with this legislation. Please do not pass these regressive and abusive measures.  
Kevin Richmond
