---

Dear legislators,

I want to formally oppose to the bill HB 4167. It doesn't matter which way this is presented, the people of Oregon want this to go to a vote.

We have a right in a democracy to choose what our government dictates for our lives. We also have a right by Oregon Constitution to vote on any bill that is a tax.

Central Oregon has a long history of difficulty receiving goods by truck over the mountain passes. If many of the independent trucking companies go out of business or have to charge more (making them less competitive) that difficulty will return to Central Oregon. When the bigger companies have a priority to the metro areas of Oregon then the rural areas will suffer. With so much tourism in our county that sure will affect so many of the small restaurants and stores here.

Please let this go to a vote.

Thank you,  
Natanya Hernandez
