

I hereby announce my opposition against HB4167 Cap and trade and all previous and present revisions. This is abuse of power cramming taxes on the citizens without the citizens vote properly recieved. "Special sessions are for Emergencies." The real emergency is the rapid decline of public safety in regards to trash and biohazards plaguing the I5 corridor. The real problem is Sanctuary States. The real problem is Massive Lobbyists controlled politicians! Starting from the Govenor on down. Term Limits 2020.
