

I oppose HB 4167 Cap and Trade as so many other Oregonians do. This is not a thought out bill. It's only reason for being pushed on us is for the revenue. It will not benefit Oregonians. Stop try to jam this bill through your super majority and send it to voters - we the people need to be the voice on matters such as this. Let the people speak!!

- a) Cap and Trade is going to drive up utility prices and gas prices.
- b) The carveouts aren't for everyone...so that's not a fix.
- c) Waiting around for a tax rebate next year when you have to pay your bills today...also not a solution.
- d) Timber Unity has a 4-point plan to address carbon issues WITHOUT a tax...pass that NOW and leave our checkbooks alone.
- e) County Commissioners from all over Oregon are saying NO to Cap and Trade. Legislators should too.
- f) It's a huge change in how Oregon does regulations related to transportation and manufacturing and natural resources - the people deserve the right to vote - refer it to the people.
- g) Stop wasting our money on green energy boondoggles. \$20 million to implement is crazy and unrealistic based on past projects and failures.

We will not give up!! We will not forget- especially during the next election!
