Vote NO on SB 1530

ANTARCTICA has RIVERS, which have FLOWED WITHOUT ICE---THREE DIFFERENT TIMES IN HISTORY

-- Sedimentary cores reveal three times in history in which Antarctica was warm enough for the rivers to flow, and one of the times was for a long period.

ANTARCTICA WAS MAPPED very accurately during an ancient period during which there were no glaciers in Antarctica, possibly as early as 4000 BC

--The ancient maps provide EVIDENCE that CANNOT BE DISMISSED. The sedimentary core samples provide EVIDENCE that is very plain. The ice was gone from Antarctica and map-makers sailed around Antarctica mapping the coast line

A few other Democrat Hoaxes that they have profited from.

--Slavery, Jim Crow (and now they want to charge Republicans reparations)

-- Bill Clinton stopped good forest management and the resulting fires are blamed on global warming. The State of Oregon has the information about the policy change that has led to the fires that are being attributed to climate change.
