

Dear Chair Holvey, Vice Chair Drazan, Vice Chair Warner, and House committee on Rules,

I'm Anna Snegirev from the Russian Old Believer Community and I'm contacting you today asking you to please, please vote NO on HB4167. I feel that heavy taxation and punishment by payment is not the best route to reduce carbon emissions in Oregon. There are many, many alternative routes have been introduced to reduce emissions that will not severely affect us Oregonians. Emission levels are down 28% since 1990 with current regulations that already have been implemented. Please let's find another way!!!

Please consider these issues when you vote, Thank you so much for your time and God Bless 🙏.

Anna Snegirev
Molalla, Oregon
