(Elimination of the 2nd Amendment)

By Manny Martinez

Nowadays, in the State of Oregon a gun safety hypocrisy is elaborating by the Socialists to eliminate the 2nd Amendment of our Constitution; there are several bills to attack the “2nd”, two of them are HB 4005, SB 1538. Others most likely will come at later time. *All fabricated by the Socialists, enemies of our Freedom disgracing our Fathers Founders and many other, which died defending the Liberty we are enjoying.* This act cannot be allowed for any reason. The free men and women from this Land would refuse to comply.

The 2nd Amendment is one of the pillars of our Foundation. It is the guardian of all of our “Rights” and the protector of our Liberties. The 2nd Amendment is not for authorize hunting, nor to compete in target shootings. The 2nd Amendment is for defend our undeniable “Rights”. No person, neither a group has the authority to infringe those God given rights. We are dishonoring our Founding Fathers and a tonnage of braves Patriots.

Our enemies the so called “Left-Wingers” aka ”Socialists” joining with many other synonymous, wanted to convert us into subjugate marionettes; is the reason we must to prevent the above Bills and others coming to set. It is necessary to denounce the hypocrisy amassing to disarm the citizenry, for the intention to immerse this Nation in Socialism using gun safety as a pretext.

I would like to expand in more details the scenario we are facing. For many it is something new However, it is not new, it is very old; has been used thru decades for World control. None the less, regardless of the persistence efforts they have yet to consummate their goal. They have tried in all Nations, with different languages; its goal and strategy are the same, but shy in result. The danger I fear is the attacks, in full gear on America. I am concern how and why many people are still saying – “it won’t happen here.” I am afraid too many would like to try it and decide later. Not knowing in Socialism, after grabbing power reversing it would take an unparallel amount of martyrdom; leaving a trail of blood, misery, pain and death. We do not need “Socialism” We have everything we could imaging more and better, with FREEDOM.

“Disarm the people – that is the best and more effective way to enslave them”

James Madison
