

I oppose HB4167. We are being taxed out of the state we love. Prices on EVERYTHING are skyrocketing due to these bogus overreaches from the Democratic party. We do not want to be California... California is a dried up cesspool of burnt up forests and homelessness. Look at Salem...Portland.. And Eugene. The 3 major Democratic cities in Oregon.. Nothing but trash and homelessness. Why is Cap n Trade such an emergency?? Why not fix the homeless problems and opioid problems??

Thank you for listening
