Dear chair Holvey, vice chair Drazan, vice chair Warner, and house committee on rules,

Hello I'm contacting you today to say please vote NO on HB 4167. Heavy taxation is not the best route to reduce carbon emissions in Oregon. Many alternatives have been proposed to reduce emissions that would not severely affect Oregon's economy. With the current regulations, we have seen a difference! Emissions have dropped 28% since 1990. Please consider this when you cast your vote.

Thank you,

Nona Avgi
Molalla Oregon
