

Dear Chair Holvey, Vice Chair Drazen, Vice Chair Warner, and House committee on Rules,

Writing you today to ask you to please vote No on HB4167. Increasing taxes and putting the burden on hard working citizens is the best way to reduce the carbon emissions in Oregon. There have been other ways proposed to reduce emissions that will not affect the economy. With current regulations, emission levels are down 28% since 1990!

Please consider these issues when voting.

Thank you,

Natalia Kutsev
