

Representatives:

Unfortunately I cannot attend to testify before your committee. I'm submitting this as my oral testimony. I respectfully request that you support Senate Bill 1542 in its entirety.

As a Vietnam era veteran, and as a county commissioner who has worked diligently to support our homeless veterans, this monument to the service of our veterans will be greatly appreciated. It was a difficult time for many people. A monument such as this will facilitate healing for those who suffered as a result of that war. Thank you for your consideration of my remarks. Ken Humberston Clackamas County commissioner
