To: Capital Construction Subcommittee
From: Laurie Byerly, Legislative Fiscal Office
Date: February 27, 2020
Subject: HB 4016 – Relating to health care

HB 4016 clarifies scope of practice for estheticians and advanced estheticians, allows pharmacists to dispense certain prescription drugs based on the “urgent medical condition” as defined in the measure, extends the timeline of the Task Force on Universal Health Care, and directs DHS to create the Senior Emergency Medical Services Advisory Council and Innovation Program to improve emergency medical services for seniors.

Provisions of the bill related to the budgets for the Oregon Health Authority, Department of Consumer and Business Services, and the Oregon Board of Pharmacy are anticipated to have a minimal fiscal impact.

The fiscal impact for the Department of Human Services around the Senior Emergency Medical Services work is indeterminate and will be clearer once program pilot projects are selected; DHS reports there is approximately \$5 million in the Quality Care fund for various projects, including pilots under this measure. The agency will staff the program with a position received in HB 5050 (2019) for promoting effective use of emergency medical services by residents of licensed long term care settings.

The -B20 amendment adds the Board of Cosmetology as one of the boards in the Health Licensing Office in OHA allowed to act before the operative date since this board also oversees esthetician practices.
