

Coyote killing contests - really!?

I was very surprised to hear that this is legal - and in practice. Some humans seem to be drawn to malevolent and cruel acts. When this proclivity arises, society's good heart and head needs to step in and say "no."

In your capacity as legislators, please represent our community and make this deplorable activity illegal.

Thank you!

Sincerely,
Laurie Strother

"Without shame, let us be the men and women of good will."
Emmanuel Macron
