

Oregon's wildlife is managed under the public trust doctrine, which holds that our state's wildlife is managed for the benefit of all Oregonians. I believe HB 4075A is good for farmers, good for hunters, and good for wildlife. Science proves that randomly killing coyotes increases conflict with livestock, and casts Oregon's ethical hunters in a bad light. HB 4075A is legislation that is perfectly aligned with Oregon's values, the best available science, and broad public support.
